In re Application of	:	
Buchsbraum et al.	:	DECISION REFUSING STATUS
Application No.09/643,580	:	UNDER 37 CFR 1.47(a)
Filed: August 22, 2000	:	
Attorney Docket No. 1999-0131	:	
Title of Invention: GRAPH ALGORITHM FOR	:	
COMMON NEIGHBORHOOD ANALYSIS	:	

This is in response to the petition filed May 29, 2003, under 37 C.F.R. §1.47(a).

The petition under 37 C.F.R. §1.47(a) is **DISMISSED**.

Rule 47 applicant is given TWO MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 C.F.R. §1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor. **Failure to respond will result in abandonment of the application.** Any extensions of time will be governed by 37 C.F.R. §1.136(a).

The above-identified application was filed on August 22, 2000, without a fully executed oath or declaration.

A grantable petition under 37 C.F.R. §1.47(a) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§115 and 116; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor.

The instant petition does not satisfy requirements (1).

As to item (1), Rule 47 applicant has failed to show that the non-signing inventor refused to sign the declaration after having been presented with the application papers. Rule 47 applicant indicates two e-mails were sent to inventor Giancarlo, which went unanswered. However, rule 47 applicant did not indicate a copy of the application papers (specification, including claims, drawings, and oath or declaration) was presented to the non-signing inventor. Before a refusal can be alleged, applicant must demonstrate a bona fide attempt was made to present a copy of application papers (specification, including claims, drawings, and oath or declaration) to the non-signing inventor. See MPEP 409.03(d). If the application papers were sent to inventor Giancarlo a statement to that effect should be provided.
